

COUNTY OF LOS ANGELES
DEPARTMENT OF PARKS AND RECREATION

"Creating Community Through People, Parks and Programs"

Russ Guiney, Director

August 1, 2006

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**APPROVAL OF THE SORENSEN PARK JOINT USE AGREEMENT
BETWEEN THE COUNTY OF LOS ANGELES AND
THE WHITTIER CITY SCHOOL DISTRICT FOR IMPROVEMENTS TO
AND USE OF THE SORENSEN ELEMENTARY SCHOOL BALL FIELD
(ALL DISTRICTS 3-Vote Matter)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find this action categorically exempt from the provisions of the California Environmental Quality Act (CEQA) according to Sections of the State CEQA Guidelines and Classes of the Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, cited herein.

Approve and instruct the Mayor of the Board to sign the attached Joint Use Agreement between the County of Los Angeles (County) and the Whittier City School District (District), which authorizes the County, by and through its Department of Parks and Recreation, to plan, develop and construct an additional ball field at Sorensen Elementary School (School), which is located adjacent to Sorensen County Park, in exchange for the District allowing the County to use the ball field at scheduled times approved by the District. There will be no fiscal impact to the County's General fund. The cost of improvements to the ball field will be funded entirely by the First District's Discretionary Fund, at an estimated cost of \$15,000.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the proposed Agreement will authorize the County, acting by and through its Department of Parks and Recreation (Department) to renovate an existing unusable ball field at Sorensen Elementary School (School), which is located adjacent to Sorensen County Park (Park), in exchange for the District allowing the County to use the ball field during weekends, school holidays, and vacation periods as scheduled and approved by the District during a five-year, renewable term. Approval of this action will allow the Department to reduce the long waiting list for participation in its youth sports programs, by increasing the availability of field space and playing time. The District will have the right to the exclusive use of the ball field during all "Regular School Days" defined as those days on which school is held in regular session as established in the School's "Schedule of Classes."

Implementation of Strategic Plan Goals

It is in the public interest for facilities of public entities to be put to the fullest possible public use. The *County Strategic Plan* encourages collaboration across functional and jurisdictional boundaries of organizational effectiveness (Goal 3). The plan also provides for investment in public infrastructure to strengthen the County's fiscal capacity (Goal 4). Adopting a County-District Agreement for joint use of a school ball field, which will be built by the Department, will provide more recreational opportunities for park patrons and enable the Department to program youth sports activities, which furthers these goals.

FISCAL IMPACT/FINANCING

There will be no fiscal impact to the County's General Fund. The cost of materials necessary to renovate the ball field will be funded entirely by the First District's Discretionary Fund. The estimated cost of the ball field improvements is Fifteen Thousand, (\$15,000), which will be transferred to the Department's operating budget after your Board's approval of this action.

The Department does not anticipate that any additional costs will be incurred to operate the ball field. The Department will meet its obligations of maintenance and programming, as outlined in the agreement, utilizing existing resources and staff. The Sorensen Park youth sports volunteer group will perform field maintenance and existing staff will be used to provide the youth sports programs within current staffing allocations.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Section 10900 *et seq.* of the California Education Code authorizes counties and school districts to cooperate with each other in organizing, promoting and conducting joint recreational and educational programs.

The term of this proposed Agreement is five years with a five-year option period. The County's responsibilities under this Agreement are expressly delegated to the Department's Director. The District has executed the attached Agreement and County Counsel has approved the proposed Agreement as to form. The Department of Parks and Recreation will be required to provide the District with a schedule for usage of the ball field on a yearly basis.

ENVIRONMENTAL DOCUMENTATION

The County is the lead agency for purpose of compliance with the California Environmental Quality Act (CEQA). The proposed project is categorically exempt from CEQA according to Sections 15301, 15304 (a), (b) of the State CEQA Guidelines and Classes, 4 (a) (c), 5 (a) of the Environmental Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, because the project provides for alteration of existing land and facilities, in addition to new accessory structures.

IMPACT ON CURRENT SERVICES

As a result of this action, the provision of youth sports programs at Sorensen Park will be increased. The current waiting list for Sorensen Park youth sports programs will be greatly reduced by the availability of an additional playing field.

The District and County will provide a balanced share of the maintenance and upkeep of the improved ball field. District will maintain the landscaping of the ballfield. District shall also provide and pay for all utilities needed for the use of the ballfield. The County will be responsible for the maintenance and upkeep of the ball field during County's scheduled use as approved by the District, which will be provided by a youth sports volunteer group at the park. No increase in staffing will be required to provide programming for the additional ball field and existing programs will remain unaffected.
